

3D Archery League - 2024

The 2024 season participants have exceeded prior years in number and skill. We also had a growing group of seniors and a traditional bow shooter (30 point handicap).

This year we included the option to shoot at a longer distance on half of the targets for bonus points, usually 10 additional yards for 2 extra points. This option will continue next year.

The top individual placements are:

- 1st – Trevor Polum
- 2nd – Ryan Dedrickson
- 3rd – Nick Hamel

The top team placements are:

- 1st – Trevor Polum and Dennis Polum
- 2nd – Ryan Dedrickson, Ryan Denissen and Ian Duncan
- 3rd – Nick Hamel, Jim Hamel and Jason White

The top senior individuals are:

- 1st – Rick Strak
- 2nd – Joe Porwoll
- 3rd – Bob Plastine

The first-place finishers will receive a trophy and the return of their entry fees.

On August 17th we hosted an Open 3D Archery competition, overseen by Nick Hamel and Brandon Yahr, which attracted a dozen new faces. All had positive comments about the course, which is likely to spread through the archery community. A representative from Scholastic 3D Archery expressed interest in using the grounds for a youth competition in mid-2025.

Thank you all for participating and best wishes for a successful hunting season.
